

SHATHURYA PARAMANATHAN

Software Engineer

📧 Shathurya | 🌐 Shathurya Paramanathan | ✉ shathuparam27@gmail.com | ☎ +94769481183

PROFILE

Dedicated IT undergraduate with strong programming and analytical skills, focused on building scalable software systems and data-driven solutions. Experience in developing and maintaining applications, with a growing interest in machine learning. Proficient in problem-solving, fast learning of new technologies, and contributing to full-stack and data-centric projects in collaborative environments.

EDUCATION

- **B.Sc.(Hons) in Information Technology** 2022 - 2026
University of Moratuwa, Colombo, Sri Lanka
L2S2 SGPA - **3.83 (Dean's list)**

EXPERIENCE

- **COGNTIX - Software Engineer Intern** Feb 2025 - July 2025
Nallur, Jaffna, Sri Lanka
 - Frontend (React) development and backend API integration (Express.js) for Telecom, MedTech, and HR Tech projects
 - Built and deployed responsive web applications with RESTful APIs
 - Developed proof-of-concept (POC) for data-driven solutions through research and prototyping
 - Worked across full SDLC: development, testing, deployment, and debugging
 - Handled data integration workflows and optimized application performance
 - Recognized as Top Performer of Internship Batch

PROJECTS

1. **AN E-COMMERCE SITE FOR PRE-USED ITEMS - THRIFTING.LK** GitHub
ExpressJS, React, MongoDB, Firebase
 - Developed a full-stack e-commerce platform for buying and selling pre-owned items to promote sustainable shopping
 - Contributions:
 - Built backend REST APIs using Express.js for seller onboarding and management
 - Implemented seller dashboard for product management, buyer tracking, and profile updates
 - Designed category-based product listing and improved user experience for buyers and sellers
2. **AUTOMATION IN CANDLE MAKER- HARDWARE PROJECT**
C, Arduino, Blender
 - Built an automated candle production system to improve efficiency, consistency, and scalability while supporting multiple candle shapes and sizes.
 - Contributions:
 - Developed Arduino firmware in C for precise control of the production process.
 - Mechanical components modeled and simulated using Blender for design validation.
 - Tested and debugged system to ensure reliability and performance

3. SL Flood Risk Predictor - Machine Learning Project

Python, XGBoost, Scikit-learn, Pandas, SHAP, Flask

Live Demo | [GitHub](#)

- Built ML model for flood risk prediction in Sri Lanka using environmental, geographic, and infrastructure data
- Implemented XGBoost regression ($R^2 = 0.989$, low MAE/RMSE)
- Performed data preprocessing (missing values, outliers, encoding, feature scaling)
- Applied SHAP (Explainable AI) for model interpretability and identification of key risk factors (rainfall, elevation, river distance)
- Built and deployed an interactive Streamlit dashboard for real-time flood risk prediction and visualization.

4. EXPENSE TRACKER

NextJs, Clerk, Tailwind CSS ,Dirzzle ORM

[GitHub](#)

- Developed a secure expense tracking application with authentication and session management.
- Implemented a transaction log and a categorized expense tracking system
- Built real-time analytics and visual reports for financial insights
- Designed a clean and responsive UI using Tailwind CSS

TECHNICAL SKILLS

- Programming Languages: Python, Java, C
- Web Development :React, Next.js, HTML/CSS, JavaScript, Express.js, Material-UI, Tailwind CSS
- Databases and Cloud : MongoDB, MySQL,AWS(Beginner)
- Data & ML: Data Cleaning, Processing, Modeling, Visualization; ML Fundamentals, Basic Model Training
- Tools: Git, VS Code, Postman, Jupyter Notebook

EXTRACURRICULAR ACTIVITIES

- Third Year Batch Representative (2024/2025), UOM
- Company Coordinator – CodeGen FIT Future Career Event, INTECS UOM(2024)
- Web Team Coordinator – Tamil Literary Association, UOM (2025/2026)
- Crew Member (News Operations Pillar) - MoraSpirit (2022–2024)
- Member - AIESEC Colombo South
 - oGV Member (2023/2024)
 - Marketing and PR — Shutter Squad (2023/2024)

CERTIFICATIONS AND ACHIEVEMENTS

- React Basics - Meta (Coursera)
- Code Rush 2023 - INTECS,University of Moratuwa
- Artificial Intelligence - NoviTech R&D Pvt Ltd(Issued Jul 2024)
- Data Analytics - NoviTech R&D Pvt Ltd(Issued Jul 2024)
- Idealize'24 - Participant
- HackMoral 6.0 - Participant

REFEREES
